

CONTAINS CONFIDENTIAL BUSINESS INFORMATION
FEBRUARY 9, 2018

Questions / Follow-Up Items from Agencies
Discussed at January 25, 2018 Meeting re: Kohler Co.

- 1) Some documents that the Company produced in response to ARB's August 7, 2017 request for documents ("Any and all audits, reports or analysis that determined and addressed non-compliance with Parts 1054, 1065 and 90 and . . . ARB SORE and LSI regulations") reference (b) (4). What is this (b) (4)? Is it related to (b) (4)?
- 2) Explain (b) (4) EFI engine models that were tested on (b) (4), and the reasons for those tests, including (b) (4).
- 3) For each Delphi EFI family, identify when final calibration was fully developed and released and engines first introduction into commerce
- 4) Provide titles and roles for individuals mentioned in key documents.
- 5) Explain the Company's (b) (4).
- 6) Did Kohler (b) (4) as a result of presentation in slide 72?
- 7) (b) (4).
- 8) Failed reports questions: PLT testing. On December 19, 2017, Kohler responded to ARB's August 7, 2017 request for information with (b) (4).
- a) Why was the engine tested under Test Number (b) (4)?
 - b) In response to ARB's request, Kohler provided a list of (b) (4). Why were those tests (b) (4)? Why were (b) (4) on certain engines?
- 9) Provide privilege log.
- 10) Provide analysis of emissions impacts for all Delphi EFI engines, not just the emissions impact from the five Delphi EFI families that were revoked in 2016.
